

ZANE'S STRUCTURES

Howard Zane - Ph: 410-730-1036 or email hzane1@verizon.net

Item #	Description	HO Dims	HO \$	O Dims	O \$
431	Light Rail Box Truss Bridge	9.9" X 3.3"	395	18" X 6"	495

Construction is entirely of wood with styrene bolts and U channel splices. Guy wires are of brass rod. This kind of bridge would have been used on light rail branch line or to service a private siding. Photo 155 is of the bottom construction. The design is late 19th Century, but several of these types of bridges are still in service today.
